

## Continental Packaging/Warranty Return and Identification Information

### Packaging

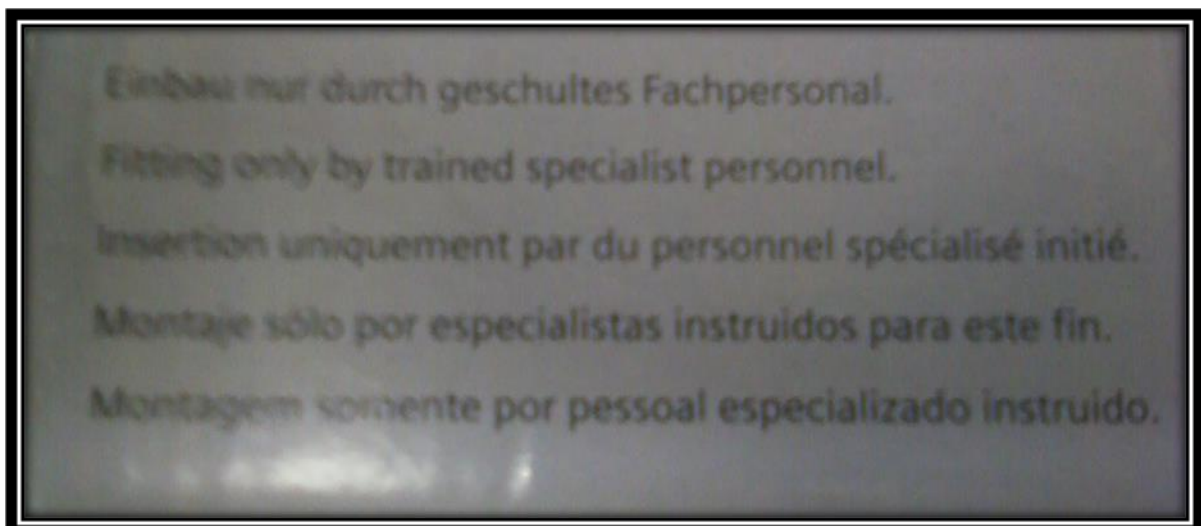

All boxing has the following information on its outer casing:

- Where made (in 13 languages).
- Part description and VDO reference number
- Bar code.
- An octagonal symbol indicating that a trained mechanic and not any untrained personnel should fit the part.

On the inside of the box there is a note, also in 13 languages, with the following on:

**‘See catalogue for use/Follow the vehicles manufacturer’s instructions for installation/Installation only by trained staff’**

Also inside the box is a label to further re-iterate the above.

## **Identification of Parts and Problems**

All parts possess a VDO reference number. All parts have been neutralised i.e. any reference to the OE be it a logo (e.g. VW) or OE number have been removed. If the part has a logo or OE reference on it then the part did not originate from Continental/VDO Birmingham.

### **Siemens VDO Neutralised**

### **NON Siemens VDO Part (Spurious)**

### **Original OEM Supplied Part**

## Throttle Bodies/EGR Valves

Siemens VDO Neutralised Part Below

(Marking Removed from Plastic Cover and Part Number Laser Etched in to Metal Body)

Original OEM Supplied Part Below

(Marking would be on the Plastic housing Cover)
